

“LANDSLIDE RESEARCH AND RISK REDUCTION  
FOR ADVANCING CULTURE OF LIVING WITH NATURAL  
HAZARDS”

Ljubljana, Slovenia, May 29 – June 2, 2017 (Monday to Friday)

**Open Session I**  
**“Resilience of communities exposed to landslide risk  
(COST Initiative)”**

**Time and location:**

Wednesday, May 31 from 12:00 to 13:30 (lunch time), room E1, Forum venue (TBC).

**Conveners / Facilitators:**

**Michele Calvello**, University of Salerno, Italy. E-mail: [mcalvello@unisa.it](mailto:mcalvello@unisa.it).

**Jan Klimes**, Czech Academy of Sciences, Czech Republic. E-Mail: [klimes@irms.cas.cz](mailto:klimes@irms.cas.cz).

**Session objective:**

Advocate for and facilitate international collaboration on resilience for landslide risk within the scope of relevant research initiatives (e.g., Horizon 2020 projects, COST actions, ICL networks).

**Session structure:**

- Presentation of COST-Action project “LandAWARE - Landslide early warning systems as tools for community resilience” (project under review at time of press)
- Short presentations from invited speakers
- Moderated Q&A discussion

**Who should participate:**

People interested in participating in relevant research initiatives on the session’s topic are welcomed to attend the session with ideas to discuss.

**Matjaž Mikoš**, WLF4 Forum Chair  
Dean of Faculty of Civil and Geodetic Engineering  
Holder UNESCO Chair on Water-Related Disaster Risk Reduction  
University of Ljubljana
